The Student Registration Form contains the numbers that will identify the students on their answer sheets and on the report of their scores. Please list the names in alphabetical order with last name first. Use additional sheets if necessary. A computer printout in the format of the Student Registration Form is also acceptable. Be sure to print out all leading zeros. Assign consecutive six-digit numbers each having your school code (available at <http://www.albion.edu/math/mmpc/codes.htm>) as the first three digits.
