# CAREER DEVELOPMENT

---

## “My Albion experience helped me obtain my finance internship with Goldman Sachs

where I was able to effectively balance several projects at once. At Albion, everyone wears several hats—I have two majors and a lot of co-curricular activities. I think when it comes to project management that really helped me. Working closely with my professors gave me an edge as well. That made it much easier to reach out to my superiors during my internship when I had questions.”

Heather Waldron  
Majors: Economics & Management, Biology
