Contributing Is Easy

Contributing funds helps lower your taxable income and allows you to build a “nest egg” for future healthcare expenses. Contributions to your HSA may be made by you, your employer or anyone; however, the preferred tax treatment will only be realized by you.

CONTRIBUTION METHODS

You can contribute money to your account in several convenient ways including:

Funds Transfer – Within the Member Portal, you can schedule one-time or recurring electronic transfers from other financial institutions. They are fast and easy!

Account Transfer – If you have an existing HSA, you may be eligible to either rollover or transfer the funds to your new HSA. Contact your current HSA Custodian or you may call us at (716) 852-2611 for further assistance.

Checks – If you prefer, you can send us a check by mail made payable to WealthCare Saver FBO (Account Holder Name) HSA. Simply write your HSA account number in the memo line and mail your check and a completed HSA contribution form to WealthCare Saver #010163, BIN 88163, Milwaukee, WI 53288-0163.

Maximizing Your Contributions

As you decide how much to contribute, it's important to note that contributing the maximum allowable amount helps you to get the most from your HSA. At the very least, you'll want to contribute enough to cover anticipated healthcare expenses. Because your balance rolls over year to year, there is no penalty for contributing more than you're able to use in one year. The tax advantages of an HSA make it a powerful longterm savings vehicle.

The maximum annual contribution can be made even if you become HSA-eligible after your tax year begins, as long as you are covered under a High Deductible Health Plan (HDHP) on the first day of the last month of your tax year (December 1 for most taxpayers) and remain in an HDHP for the following 12 months. See IRS publication 969 for details. Contributions are allowed until April 15 for the previous calendar year. Additionally, if you are 55 or older, you are allowed to make a \$1,000 catch-up contribution.

Keep in mind that HSA contribution limits, established by the IRS, may change each year and you must not over contribute to avoid adverse tax consequences.

2024 Contribution Limit		Catch-up Contribution
Single	\$4,150	\$1,000
Family	\$8,300	\$1,000

Participants age 55 or older may make additional contributions above the set HSA maximum. Catch-up contributions can be made any time during the year in which the HSA participant turns 55.

CATCH-UP CONTRIBUTIONS FOR ACCOUNT HOLDERS 55 AND OLDER

If you are age 55 or older, you may be able to make a catch-up contribution above the annual limit. Even if you join a qualified HDHP after the start of the year, you can contribute the maximum amount, as long as you have HDHP coverage for the last month of the taxable year and for the following 12 months. Catch-up contributions for the partial year of HDHP coverage must be pro-rated.

HIGH-YIELD INTEREST OPTION

Unlike an FSA, unused funds stay in your account from year to year and earn interest tax-free. You can choose the interest rate option that best meets your needs: High-Yield or Traditional. The High-Yield interest option can help you earn up to 10x higher interest on your HSA cash balance, making it a great way to maximize the savings potential of your HSA cash balance.

Simply log in to the mobile app or Member Portal, go to your HSA account summary, and click on "interest options" to make your selection or change it at any time.

Does this sound complicated? Don't worry. There are tools within the Member Portal that will help you monitor your contributions and help prevent over contributing.

Contact us if you have questions at (716)852-2611.

Using Your HSA Funds

HSA funds can be used to pay for qualified medical expenses such as:

- Medical
- Dental
- Vision
- Prescription
- Medical Equipment
- Chiropractic

Go to padmin.com and log into your HSA to use the Eligible HSA Expense tool to see what types of expenses are qualified. You can also go to www.irs.gov and download Publication 502. Generally, qualified medical expenses are those expenses directly related to the alleviation or prevention of physical or mental illness. If you use HSA funds for medical expenses that are not qualified, they will be included in your taxable income. (HSA withdrawals made for non-qualified expenses are subject to ordinary income tax and IRS penalties may be applicable to non-qualified expenses paid for with funds from your HSA. Additionally, state taxes may vary so please consult your tax advisor.)

PAY FOR QUALIFIED EXPENSES

- Use your HSA Benefits Card where accepted, such as the pharmacy or doctor's office.
- Write your HSA Benefits Card number on medical bills to have your HSA funds directed to the expense.
- Use online bill payment to pay for a healthcare expense or to reimburse yourself for an out-of-pocket medical expense.

KEEP GOOD RECORDS OF YOUR EXPENSES

Keep track of your expenses and payments by using the Member Portal to see balances, view transactions, create reports and upload receipts. Be sure to keep receipts for all of your medical expenses for at least three years for tax-reporting purposes.

If you use your HSA funds for non-qualified medical expenses, and are under the age of 65, you may incur a 20% penalty and owe income taxes on the amount used. After the age of 65, HSA funds can be used for any expense with no penalty, but you may still owe income taxes on those funds. Use of your HSA funds for qualified medical expenses is always tax free.

Investing Your HSA Funds

ADVANTAGES OF AN HSA INVESTMENT ACCOUNT

Unlike other healthcare accounts, funds in your HSA do not expire and are not contingent upon your employment. Not only does your balance accrue interest, but you also have a unique opportunity to grow your money even more by investing your HSA funds. Investing your HSA can help you prepare and save money for the future. Once your HSA reaches the \$1,000 investment threshold, you can begin investing, just like a 401(k). But unlike a 401(k), you never pay taxes on earnings or withdrawals for qualified medical expenses.

THREE INVESTMENT MODELS TO FIT YOUR NEEDS

Whether you're new to investing and seek a guided experience or a seasoned investor looking to research and trade stocks and exchange-traded funds (ETFs) available on the platform, you can select an investment journey that is aligned with your needs. Choose from three unique investment models:

Managed: Designed for novice investors who prefer to have our advisor tool automatically select and re-balance investments on an ongoing basis in accordance with their age and/or risk profile. This account type delivers a “do-it-for-me” approach to investing.

Self-Directed: Designed for intermediate investors who have the desire to self-select from a menu of monitored investment options covering multiple asset classes to diversify their portfolio, and then re-balance their portfolio manually. This account type provides a balance between do-it-for-me and DIY approaches to investing.

Brokerage: Designed for adept investors who desire to perform advanced research and trading across hundreds of individual stocks and ETFs. This account type offers a hands-on, DIY approach to investing.

ENJOY AN ENHANCED INVESTMENT EXPERIENCE

- Real-time trading: A full suite of ETFs traded in real time provides you with lower costs. When your balance exceeds \$1,000 investment threshold, you can immediately move assets into your investment account during market hours, Monday–Friday, 9:30 a.m. – 3:55 p.m. ET, rather than waiting the 24-48 hours that is common in other investment platforms. Note: For the Managed path, buys are executed according to your portfolio allocations and may take up to two business days after money is moved into the investment account
- Easy access: Manage all aspects of your HSA, including your deposit account and your investments, from a single portal and mobile app.
- Tools and resources: Access a suite of educational materials to help put you on the path to success.
