CHECKLIST FOR STUDENTS CONSIDERING THE TEACH GRANT

The Federal TEACH Grant program provides funds to postsecondary students who are completing or planning to complete coursework that is needed to begin a career in teaching.

Students must agree to serve for at least four years as a full-time teacher in the course of study for which you received the grant, in a high-need field, at an elementary school, secondary school, or educational service agency that serves students from low-income families.

Eligible full-time students may receive up to \$4,000 which is reduced by a percentage set by the Department of Education on an annual basis per year in TEACH Grant funds, up to a maximum of \$16,000 for undergraduate and post-baccalaureate study

Students who fail to complete the four years of teaching service within eight years after completing coursework, will have the TEACH grant funds converted to a loan.

In order to be eligible for a TEACH Grant students must:
